DETAILED ACTION

This office action is in response to applicant's amendment, filed on 3/4/2004.

The examiner acknowledges the applicant's amendments to the specification.

The examiner acknowledges the amended drawings 3d, 4b, 4c, 4d, and 4c, and has accepted these drawings.

The examiner acknowledges cancellation of Claims 5, 20, 35, and 50.

The examiner acknowledges the amendments to Claims 1-2, 6-9, 11-12, 16-17, 21-24, 26-27, 31-32, 36-39, 41-42, 46-47, 51-54, and 56-57.

Claims 1-4, 6-19, 21-34, 36-49, and 51-60 are pending.

Response to Amendment

Response Re: 35 USC § 103

1. In response to Claims 1-6, 8, 11-21, 23, 26-36, 38, 41-51, 53, 56-60, the applicant argues that Hong, as recited in the above claims, fails to teach or suggest "in response to an indication of a data…". In view of the amendments to the aforementioned claims the examiner agrees that the referenced art does not teach or suggest the response to an indication. Therefore, as a result of the amendment of

Art Unit: 2133

3/4/2004, the examiner withdraws the rejection to the above-mentioned claims, with the exception of cancelled Claims 5, 20, 35 and 50.

- 2. In subsequent paragraphs of the applicant's amendment, the argument is set forth for in re: Claims 7, 9, 22, 24, 37, 39, 52, 54, 10, 25, 40, 55, wherein the claims derive allowability through dependence on the independent claims 1, 16, 31, and 46. Inasmuch as rejections to Claims 1, 16, 31, and 46 is withdrawn in (1) above, the examiner's rejection of dependent Claims 7, 9, 22, 24, 37, 39, 52, 54 and 55 is also withdrawn.
- 3. Applicant's arguments with respect to claims 10, 25 and 40 have been considered but are moot in view of the new grounds of rejection below.

Specification

4. The disclosure is objected to because of the following informalities: the disclosure is not enabling in accordance with 37 CFR 1.71 because it fails to disclose the claim limitations with respect to the independent Claims 1, 16, 31 and 46, where there is a <u>response</u> to an <u>indication</u>. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 1-4, 6-9, 11-19, 21-24, 26-34, 36-39, 41-49, and 51-60 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors. at the time the application was filed, had possession of the claimed invention. Based on the amendments to the independent claims, the examiner has reconsidered the new scope of all the subject claims based on "response to an indication", and has determined that this change of scope to the invention does not stem from the specification. There is a very clear and precise meaning attributed to both "indication" and "detection" by the applicant's specification. For instance, a "silent" error (see page 2, paragraph [0003]) is a type of error that may occur without an "indication" from the system (see page 9 paragraph [0030]). But, the invention's silent error "detection" capability is the crux of the invention (see Summary of application). Every embodiment of the invention responds to a "detection" of errors, and not to "indications" of errors (see specification Summary and Abstract). Therefore, the instant amendment to the claims has rendered the claims to be in violation of 35 USC 112 paragraph 1, because the specification no longer supports the claims. The Claims 1-4, 6-9, 11-19, 21-24, 26-34, 36-39, 41-49, and 51-60 are therefore rejected.

Therefore, in total, the pending Claims 1-4, 6-19, 21-34, 36-49, and 51-60 have been rejected based on the examiner's above arguments.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
